

# ELITE COOLPLUS

Elite Coolplus is an 18mm texturised monofilament surface designed for the ultimate sports performance at the highest level. Designed to provide a soft surface with proven 'dry play' performance for hockey and superior underfoot traction for netball and basketball. Certified to FIH, ITF and World Netball international standards.

## SPECIFICATIONS

|                      |  |

| PILE HEIGHT          | 18mm   |
| MACHINE GAUGE        | 4.76   |
| STITCH RATE          | 28   |
| YARN TYPE            | Texturized monofilament, IR-Reflective Coolplus Polyethylene |
| DTEX                 | 6,000  |
| YARN WEIGHT (GMS/M2) | 1,450  |
| BACKING              | Double Polypropylene/fleece                                  |
| RECOMMENDED INFILL   | 15kgs/sqm  |
| WARRANTY             | 8 years  |
| TRANSPORT INFO       | Based on standard roll – 3.71m x 20lm                        |
| DIMENSIONS (MM)      | 3,900 x 650 x 650  |
| WEIGHT               | 176kgs (8.8kg/lm)  |

## BENEFITS

- COOLplus technology
- Synthetic turf with monofilament texturised fibres
- Player friendly, unsurpassed energy return and player comfort
- Reduced irrigation
- Extreme UV stability and durability
- Minimal maintenance
- Seam adhesion longevity
- Elite ball/surface interaction
- Environmentally friendly - recycled products utilised during construction
- Soft and resilient yarn, the micro fibre offers physical protection for the athlete at the same time delivering unsurpassed durability
- Offers true non-directional play with ball characteristics allowing for fast, accurate play

### COOLplus®

Exclusive COOLplus™ cooling technology reflects UV rays reducing the temperature of artificial grass by up to 20%.
